RE: Docket No. 07-16

Dear Madam Secretary;

I own a web-based travel business called YTB Travel. According to the 'National Federation of Independent Businesses, 35 percent of small and independent business owners have a company website. In my case, all of my reservations are booked on-line.

A free broadband network would greatly help me compete for business. Right now, only 42 percent of American homes have broadband service. That means the majority of customers cannot book travel on-line.

Docket No. 07-16, the M2Z Networks proposal, would ensure free broadband for 95% of Americans within the next decade with assured speed six times faster than dial up. This is an important step for my small business and a critical step for the American economy.

I urge the FCC to approve Docket No. 07-16.

Sincerely,

Elvis Rohena
Owner
